

# Surface Approximation and Visualisation II

Westport, New Zealand  
19-22 February, 2002

The conference theme **Surface Approximation and Visualisation** will be interpreted broadly. We expect participants with interests covering the spectrum from Approximation Theory, through Numerical Analysis and Computer Aided Geometric Design, to those whose main interest is applications. Currently confirmed speakers include:

**L. Bos** (Calgary), **K. Brodlie** (Leeds), **R. Farouki** (Davis),  
**S.L. Lee** (Singapore), **D. Mache** (Dortmund),  
**A. Le Mehaute** (Nantes), **M. Neamtu** (Vanderbilt),  
**A. Ron** (Madison), **Z. Shen** (Singapore), **I. Sloan** (Sydney).
